/ BY BOXX

Smarter E&O Protection For Next Gen Tech Companies

For fast-moving, next-generation tech companies – spanning SaaS, AI, and digital infrastructure – Tech E&O by BOXX is built to stay ahead.

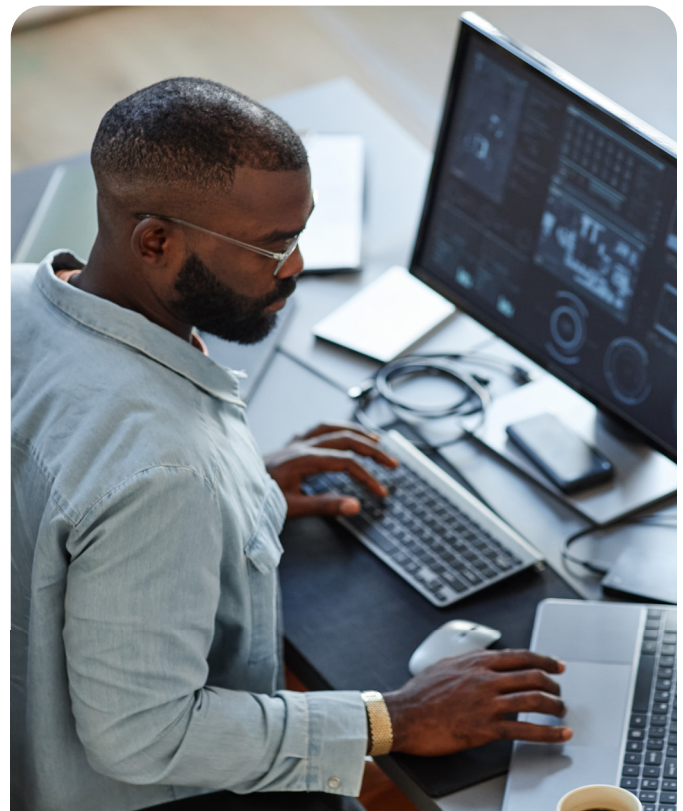

Tech E&O by BOXX combines complete Tech E&O cover with Canada's leading all-in-one cyber insurance product, Cyberboxx® Business, included by default.

With stronger terms, broader coverage, and real protection designed for the way your tech company operates, Tech E&O by BOXX gives you greater confidence from day one. We give you the coverage, tools and expert support to stay protected and stay out of the headlines.

Why choose coverage by BOXX?

Built for what's next in tech – here's how BOXX stands out:

-  **The latest terms. Stronger coverage. Fewer blind spots**
We've rebuilt our policy from the ground up – addressing gaps, reducing exclusions, and broadening triggers.
-  **Tech E&O + Cyber, included by default**
Every Tech E&O policy includes Cyberboxx® Business: threat protection, incident response, and proactive cyber services – all in one.
-  **Built for what's next in tech**
Our coverage includes advanced risks like AI, LLMs, APIs, data poisoning, and platform discrimination.

Protecting tech companies from the risks that come with innovation

From AI errors to data poisoning, Tech E&O by BOXX keeps your business protected against the real-world risks that come with building and scaling technology. It's smarter, faster protection built to move at the speed of innovation.

"A client experienced downtime after an API integration we managed failed unexpectedly. Thanks to our Tech E&O coverage with BOXX, we were able to resolve the issue and protect our business from financial and reputational damage."
