

Your Virtual CISO Advisor

**Your cyber security consultant,
without the enterprise cost**

INCLUDED WITH YOUR CYBERBOXX® POLICY

Cyber threats are increasing in speed and sophistication, but many businesses simply haven't had the time or budget to keep up. The good news: improving your cybersecurity doesn't have to be complex or expensive. With the right guidance, most organizations can make meaningful improvements quickly and cost-effectively.

Your Virtual Chief Information Security Officer (vCISO) acts as your independent cyber advisor helping you make smarter security decisions, avoid unnecessary spend, stay ahead of threats and be ready if something happens.

No pressure. No obligation. Just practical guidance tailored to how your business actually operates.

HOW WE WORK

- No obligation to purchase services
- We help you evaluate your existing vendors
- We focus on what's right for your business
- Designed for SMB budgets and realities

Start with a Free Consultation

Understand your current risks and priorities; with no cost, no obligation.

01

Build Practical Protection

We help you choose tools and services that fit your budget.

02

Prepare Your Team

Guided cyber incident simulations so your team knows how to respond.

03

Support When It Matters Most

You're never alone. We help guide decisions and coordinate response.

04

The majority of **risk** comes
from gaps – not complexity.

Think of your vCISO as an extension of the team, not a vendor.

You don't need to do everything, just the right things. We help you identify them.

Make sense of your current risk exposure

We help you understand where your business is most exposed through BOXX scanning results, security assessments, and penetration testing guidance – focusing on the fixes that matter most.

Practical guidance on what to do next

Cybersecurity can feel overwhelming. We help you prioritize security actions, choose the right tools and partners, and make smart decisions without unnecessary complexity or cost.

Support navigating compliance requirements

We help simplify compliance requirements with practical guidance, policy support, and manageable steps toward meeting expectations.

Ongoing insight without the noise

Our Hackbusters® Alerts and vCISO guidance help you stay informed on relevant threats, changing risks, and the actions worth taking.

Help interpreting security tools & monitoring

Whether you already have security tools in place or are evaluating new ones, we help you understand what your tools are telling you, what truly matters, and when action is needed.

Guidance on governance & good practices

We help you build practical policies, procedures, and security habits using proven templates, best practices, and guided cyber exercises.

WHY THIS MATTERS

Cyber incidents cause real harm to your business, such as:

- Business disruption
- Financial loss
- Reputational damage
- Loss of critical data

*Most of this is preventable
with the right guidance.*

**REAL PEOPLE.
REAL HELP.**

Your vCISO is supported by Hackbusters®, our team of cyber experts focused on prevention, response, and recovery.
